• Hover over the Student Access drop-down and then click "My Account."

• Click "Get Registered."

• Complete the registration information and click "Register."

• You will be emailed a verification email. Locate this email and click "Verify" in the email. You will then be redirected back to the site to your profile, scroll down until you see COLLEGE/UNIVERSITY, add your school, then scroll down to update.

• Click on Bookstore in the upper left corner.

• Again, hover over the Student Access drop-down and then click "Purchase Access or Redeem Bookstore Code."

• Locate the required text(s) and click "Add to Cart."

• After you have added all your required text to your cart, click "View Cart."

• If you purchased an access card from your local bookstore, scratch to reveal your code. Enter that code into the coupon code area and click "Apply Coupon." Do the same for each title you have an access card for.

• Confirm your total and complete your order.

• Once your order is complete, you will see an order summary with a link to go to your Dashboard; click the link.

• You will then be redirected to your dashboard. In the Section Code area of your Dashboard, enter the section code that your professor provided and click "Enroll and access." **NOTE: The purchase site and the LMS site sync every 60 seconds. If your section code doesn't work immediately, wait 1 minute, refresh your page, and try the section code again.**
